GROUND CLOUD

GroundCloud is a leading SaaS-based logistics software company that delivers best-in-class safety, operations, telematics, and analytics solutions for the final mile delivery industry. GroundCloud's proprietary technology provides an all-in-one safety, productivity and compliance ecosystem for logistics service providers.

GROUNDCLOUD PRO

GroundCloud Pro is a more advanced version of our flagship CSP manager platform. This revolutionary set of features is designed to help final mile delivery contractors optimize and automate operations. The new product significantly improves their bottom line, at a time they need it the most.

ROUTESTATS™ • ENHANCED FLEET MANAGEMENT • PAYROLL AUTOMATION • CENTRALIZED WORKFLOW • IMPROVED SCHEDULING

VEDR

GroundCloud's 4K VEDR system takes vehicle and driver protection to the next level. The dual lens system provides 4K video from the front-facing lens while simultaneously capturing the cabin in wide angle 1080p. Keep your fleet safe and compliant with the best tech at the best value.

LIVE AND ON-DEMAND VIDEO FOOTAGE • AUTOMATED CAPTIVE COACHING • ENCOURAGE POSITIVE DRIVER BEHAVIOR • SIMPLIFY CLAIMS VERIFICATION

GROUNDCLOUD TRAIN THE TRAINER CERTIFIED

Qualification Certification

GroundCloud's industry-leading Train-the-Trainer program is an intensive, five-day, multi-disciplinary course which employs final mile specific content to help candidates meet Qualification Certification standards. It produces well-rounded Safety Specialists, not simply driver trainers.
