

GROUND CLOUD FUEL CARD

FUEL YOUR ADVANTAGE

OVERVIEW

The GroundCloud Fuel Card is one of the best fuel cards in the market designed in partnership with US Bank, a leader in expense and payment management solutions for commercial fleets. Co-branded with the well-known Voyager Universal Mastercard, our fuel card has fraud protection and can be limited to fuel only or allow optional maintenance purchases such as oil changes, vehicle repairs and washes, and other related services. It gives transportation businesses like yours access to a network of 320,000 gas stations and truck stops such as Chevron, Citgo, Exxon, Mobil, Shell, Valero, and others, over 97% of the available retail fuel market.

FUEL SAVINGS

Better track your team's expenses and manage your fleet while protecting your business against fraud. With no application or transaction fees, the card use is cost-free for GroundCloud customers. You simply pay a discounted price for fuel including alternative fuels (E-85, CNG, propane, and electric charging). The Voyager Fleet Commander account management portal provides vehicle/driver reports, transaction details, real-time activity alerts, and other key info. You'll be earning a discount on fuel in the form of monthly statement credit based on the total amount spent by your fleet.

Monthly Charge Volume	Discount Applied
\$50,000.00	1.0700%
\$300,000.00	1.1650%
\$1,000,000.00	1.2600%

SIGN UP

When you apply for your fuel cards, US Bank will verify you are a GroundCloud customer and automatically approve you for 7-day billing with immediate EFT terms, no credit check required. Larger contractor accounts may request longer terms subject to a soft credit review.
